FOR IMMEDIATE RELEASE

SunPage offers Internet Call Service using VoIP technology to registered post-paid users

- ***Users can make local and international calls from any wireless hotspots or broadband access in Singapore or around the world and enjoy highly competitive SunPage call charges***
- ***No registration and subscription fees and all SunPage users enjoy up to 200 free minutes of calls made locally or from overseas to Singapore***

SINGAPORE – Wednesday, 17 January 2007 – Nexwave Telecoms Pte. Ltd. (“Nexwave Telecoms”), a wholly-owned subsidiary of Singapore Exchange Mainboard-listed TeleChoice International Limited, today announces the launch of SunPage’s post-paid Internet Call Service, offering SunPage users yet another innovative international call service.

Nexwave Telecoms, a leader in integrated telecommunications products and services, has been offering affordable international and mobile call services in Singapore under the leading SunPage brand since 2000. The SunPage Internet Call (“SIC”) service utilises wireless Voice-over-Internet Protocol (“VoIP”) technology. Users can make local and international calls over wireless hotspots or broadband access, both at home and abroad, at highly competitive SunPage call charges.

The introduction of the alternative VoIP access method not only improves user-friendliness – the user simply picks a name from his mobile’s phonebook and makes the call – SunPage’s users can now also make calls from any local and overseas wireless hotspots or broadband access without the need to pay costly outgoing local mobile charges or roaming and hotel call charges for international calls when overseas.

To use this service, the user will require a VoIP (SIP-enabled) device such as a mobile phone, PDA, laptop PC, desktop PC, and need to register with SunPage. Upon registration, the subscribers can follow the processes illustrated below to activate and use the service:

Getting Started

Step 1:

Request For PIN

OR

Buy SunPage Prepaid Card

Step 2:

Making SunPage Internet Call

Step 4

Locate WiFi zone & Search for network

Step 5

Logon to WiFi & Establish network connection

Step 6

Call any mobile or fixed line

Dial
+ Country Code & Tel No.

Mr Tay Kiong Hong, Senior Vice President (Telecommunications Services) of TeleChoice said, "The introduction of wireless broadband and VoIP call services has dramatically changed the telecoms landscape. It is our strategy to continue to harness the opportunities and potential of the internet to offer our customers innovative, highly cost-effective and value-added voice and data services. Just last month, we launched our pre-paid SIC service on the Nokia N80 Internet Edition phone for our international calling card customers. To date, we have received positive responses from users who find our technology excellent and the service extremely convenient. Today, we are pleased to roll-out our SIC service for SunPage's post-paid customers."

SIC service is pre-activated for all existing SunPage users. New users need to sign-up with SunPage before the service can be activated. There is no registration and subscription fees. SunPage will be offering all users free 200 minutes* of calls made locally or from overseas to Singapore. Thereafter, each minute is chargeable at \$0.03.

TELECHOICE INTERNATIONAL LIMITED
(REG. NO. 199802072R)

"With the Singapore IDA's implementation of the Wireless@SG WiFi initiative, we expect our SIC service to benefit from the prevalent use of wireless broadband for VoIP services as consumers increasingly use the internet for voice and data communication. We will be able to offer our service through any internet-enabled devices be it a mobile phone, a PDA or laptop PC. Going forward, we also intend to expand this service to other regional markets such as in Malaysia." he added.

To sign-up for SIC service, please call SunPage's registration hotline at Tel: 6483 3333 or visit our website www.SunPage.com.sg. Customers can also sign-up for the service at SunPage's retail outlet at Plaza Singapura (68 Orchard Road, #B2-27).

- * Each SunPage account is limited to a maximum of 200 free minutes
- * Free minutes to be utilised within 30 days from account activation
- * Prevailing rates at after the free 200 minutes apply
